

KUSUMESHKANT SHARMA

Sr. Flutter Developer · Mobile Architecture · Cross-Platform Apps

+91-8754886595 · kushumeshkant2014@gmail.com · linkedin.com/in/kusumeshkant · Bangalore, India (Open to Remote)

PROFESSIONAL SUMMARY

Senior Flutter Developer with 6+ years of experience architecting and shipping high-performance cross-platform mobile applications for iOS and Android. Proven track record in collaborating with cross-functional teams, enforcing clean architecture standards, and mentoring junior developers. Deep expertise in Riverpod, BLoC, and GetX state management; secure REST API and OAuth integration; and production-grade mobile applications serving thousands of users across diverse industries. Shipped multiple Play Store and App Store apps with 900+ backend integrations and real-time data pipelines. Passionate about performance optimization, scalable codebases, and staying ahead of mobile innovation — including IoT integrations and Flutter Web/Desktop.

CORE COMPETENCIES

- Flutter / Dart (6+ yrs)
- Clean Architecture & SOLID
- Team Mentoring & Code Review
- Riverpod, BLoC, GetX, Redux
- REST APIs & OAuth Security
- iOS & Android Deployment
- Firebase (Auth, Firestore, FCM)
- CI/CD & Automated Testing
- Performance Optimization

TECHNICAL SKILLS

Mobile	Flutter, Dart, FlutterFlow, Android (Android Studio), iOS (Xcode)
State Mgmt	Riverpod, BLoC/Cubit, GetX, Provider, Redux
Architecture	Clean Architecture, MVVM, SOLID Principles, Dependency Injection
APIs & Auth	REST APIs, GraphQL, OAuth 2.0, Dio (interceptor-level encryption), Firebase SDK
Cloud & CI/CD	Firebase (Auth, Firestore, FCM, Analytics), AWS S3, GitHub Actions, CI/CD Pipelines
Frontend	React.js, JavaScript (ES6+), HTML5, CSS3
Backend	Node.js, Express.js, MongoDB
Tools	Figma, Postman, Jira, Confluence, Xcode, Android Studio

PROFESSIONAL EXPERIENCE

Sr. Software Developer (Flutter) — Apto Solutions

Sept 2025 – Present

Chennai · Remote

Selfe Loans — Equitas Small Finance Bank · Production Mobile Platform · Play Store Live

- Architected end-to-end Flutter application using Riverpod + MVVM with strict separation of concerns across presentation, domain, and data layers — accelerating feature delivery by decoupling team responsibilities
- Engineered a modular Dio-based API client with request/response encryption & decryption at the interceptor level, securing sensitive user data across 900+ branch integrations India-wide
- Implemented complete user onboarding flows: KYC verification, document upload, real-time status tracking, and eligibility checks — delivering a seamless end-to-end mobile experience
- Integrated Firebase Analytics + Netcore Analytics for funnel tracking, user behaviour segmentation, and targeted push notification campaigns driving measurable engagement
- Owned App Store and Play Store deployment pipeline, release management, and production incident response

Sr. Software Developer (Flutter) — Joola India Pvt. Ltd

Sept 2024 – Apr 2025

Bangalore

- Led Flutter development for 150+ Health (Play Store) — cross-platform fitness app with smartwatch integration via Google Health Connect (Android) and Apple HealthKit (iOS) for automated activity sync

- Conducted regular code reviews, enforced Clean Architecture patterns, and mentored junior developers on state management and API integration best practices
- Built and maintained Node.js / Express.js backend for user analytics, workout data management, and fitness video content delivery
- Integrated Google Maps SDK for location-based pickleball court discovery feature with real-time geo-filtering
- Architected React.js frontend for RacketPro (racketpro.org) — trainer certification platform with video courses, assessments, and official certification issuance using Redux state management

Software Developer — Joulestowatts BS Pvt. Ltd

Nov 2023 – Apr 2024

Bangalore

- Delivered complete checkout module for EE e-commerce app (UK, Play Store): cart management, address selection, payment method integration, and order confirmation using Flutter + BLoC + Clean Architecture
- Integrated GraphQL APIs with strict contract-first approach; maintained TDD documentation for all feature modules ensuring regression coverage
- Applied SOLID principles across feature modules to ensure testability, maintainability, and team scalability

Software Developer — StillsWeb

Feb 2022 – Oct 2023

Mumbai · Remote

- Shipped two production Flutter apps — StillsWeb (cloud photo gallery) and Srajan AI — both live on Google Play Store
- Implemented AWS S3 integration with granular role-based folder permissions (view / edit / full access) supporting 10GB per user with secure pre-signed URL access patterns
- Built Unsync — a real-time communication app supporting video, audio, and text with event-based group collaboration using Firebase Realtime + WebRTC patterns
- Translated Figma designs into pixel-perfect Flutter UIs; integrated Hive for offline-first local data persistence
- Participated in agile ceremonies: sprint planning, standups, and demo presentations to stakeholders

Technical Engineer — Concentrix

Jun 2020 – Sep 2021

Bangalore

- Provided L1/L2 technical support — diagnosed and resolved application and hardware issues for enterprise clients, improving first-call resolution rates

KEY PROJECTS

Selfe Loans — Equitas Small Finance Bank | Flutter · Riverpod · Dio · Firebase · REST APIs | 2025–Present

- Production mobile platform with 900+ branch integrations across India. End-to-end KYC verification, document upload, real-time status tracking, and user onboarding flows.
- Secure API client with interceptor-level encryption | Firebase Analytics + Netcore funnel tracking | Play Store live

150+ Health — Fitness Tracking App | Flutter · Node.js · Google Fit · Apple Health · Firebase | 2024–2025

- Wearable smartwatch sync for iOS (HealthKit) and Android (Health Connect) | Personalized video content | Google Maps court discovery | Node.js analytics backend

EE E-Commerce App (UK) | Flutter · BLoC · GraphQL · Dio · Clean Architecture | 2023–2024

- Full checkout flow: cart, address, payment integration, order confirmation. GraphQL API integration with TDD-backed feature modules.

StillsWeb & Srajan AI — Cloud Gallery | Flutter · AWS S3 · Firebase · GetX · Hive | 2022–2023

- Cloud photo storage (10GB/user) with RBAC permissions | Srajan AI extension | Offline-first via Hive | AWS S3 pre-signed URL pattern

Unsync — Real-Time Communication App | Flutter · Firebase · WebRTC | 2022–2023

- Video, audio, and text communication app with event-based group collaboration. Firebase Realtime + WebRTC architecture.
